Privacy Policy

Effective Date: 17 Mar 2023.

1. Introduction

This Privacy Policy describes the privacy practices of Fairy Tales World ("we," "us," or "our") in relation to the use of our mobile application Fairy Tales World (the "App"). Please read this Privacy Policy carefully to understand how we collect, use, and protect your information.

By using the App, you agree to the terms of this Privacy Policy.

2. Information We Collect

We do not directly collect any personal information from our users. The only information we collect is a random unique user identifier generated by the analytics SDK.

3. How We Collect Information

The random unique user identifier is generated by the analytics SDK when you first use the App.

4. How We Use Collected Information

The random unique user identifier is used for improving app usage and for statistical analysis.

5. Sharing of Information

The random unique user identifier is shared with the analytics SDK, which should not re-share this data.

6. Data Retention

We do not collect sensitive user-related information.

7. Children's Privacy

We do not collect personal information from children.

8. Cookies and Tracking Technologies

We use a random generated User ID created after first running the application for analytics purposes. This ID is non-personalized.

9. "Do Not Track" Signals

The App checks the "Do Not Track" signal and skips tracking. Crash reports, if any, will be reported without connecting to any user-sensitive data.

10. Access, Update, or Delete Your Information

As we do not collect personal information directly from users, there is no personal information for users to access, update, or delete.

11. Opting Out of Data Collection

Users can enable the "Do Not Track" signal in their device settings to opt out of data collection.

12. Data Breaches

As we do not collect sensitive personal information, we do not have a specific data breach response plan in place.

13. Changes to the Privacy Policy

We may update this Privacy Policy from time to time. When we do, we will notify users of the changes during the next update of the App.

14. Contact Us

If you have any questions, concerns, or complaints about our privacy practices, please contact us through our public email address or via our Discord channel, both of which can be found in the App's settings page.

15. Consent

By using the App, you provide consent to our collection, use, and sharing of your information as described in this Privacy Policy.
